(also available: Domenico Ferrari - Tech Rider Live Show)

We expect a first class active stereo DJ system that is designed and tuned for the venue and powerful enough to handle extensive sub bass frequencies with ease.

1. Minimum equipment requirement:

- 8 inputs
- Mackie-1202 VLZ PRO mixing desk or
- 8 DI's
- 1 table, covered with a black cloth, minimum size: 120cmx70cm, minimum height: 1m
- 4 x clean and stable power outlet, local voltage at CPU

- 1 bassdrum mic
- 1 snare mic
- 1 hat mic
- 2 overhead mics
- 2 DI's for effects

2. Stage Monitoring: provided by the promoter

3. Lights and Light operator: provided by the promoter

We expect the venue to have an adequate light system including but not limited to stroboscopes, smoke machines and scene memory possibilities. The operator of the light equipment will be provided by the promoter and shall be experienced in the art of stage/dancefloor illuminations.

The light person will confer with the artist at a time to be specified to work on a light concept and later implement that concept during the show.

4. General:

The stage has to be even and clean. We need 60 minutes of set-up and sound check assuming there are no technical problems and all the requested gear is available, hooked up and working.

A house technician has to be available at set-up and sound check as well as during the performance. She or he has to be knowledgeable about the design, set-up and wiring of the house systems.

The channels on the mixing desk used by Domenico Ferrari cannot be altered after sound check till after his performance.

The stage and all the equipment shall be secure and safe from access by the general public or other unauthorized persons.

Any substitutions or changes to the above listed equipment or requirements have to be approved by Domenico Ferrari.
